The Automation Robotics & Mechatronics (ARM) Lab is located at 1022 Furnas Hall on the North Campus of the University at Buffalo. A full color map of North Campus is available at: http://www.buffalo.edu/scripts/directions/NorthCampus.pdf

**Detailed Directions**

To get to the campus:
- Traveling on the I-290 (Youngmann Expressway), take exit 4 onto the I-990.
- Once on the 990, keep right and take Exit 1, the UB exit.

After exiting the I-990 (Drive along the RED line):
- You will enter the Audubon Parkway.
- Move to the left hand lane, and take the first U-turn on the left. (If you go through a light, you have gone too far.)
- After making the U-turn, move to the right hand lane (Governors Hall will be on your right). Take the first exit off of the Audubon Parkway, which will be White Road.
- With Governors Hall still on your right, pass through the first stop sign. The entrance to the visitors lot will be the first opening on the right after the stop sign. Go through the gate (between 7 am and 3 pm the visitors lot is a paid lot), and park in the left hand section of the lot.

To get to the ARMLAB from Parking lot (Walk along the direction of the PURPLE line):
- Walk down from the parking lot to PUTNAM Way
- Walk East on Putnam Way (200 yards) until you see Furnas Hall – if you pass Ketter Hall and Bonner Hall along the way you are walking in the right direction.
- Enter Furnas Hall and take the elevator to the 10th Floor
- ARMLAB is 1022 Furnas Hall.
